IS YOUR PET SENSITIVE TO BEING TOUCHED, AGGRESSIVE, REACTIVE, SCARED OF PEOPLE, HAPPY GO LUCKY?	
BEHAVIOR COMMENTS:	

I acknowledge that participating in the Canine Strength & Conditioning program at Rae-Zor Grooming, Boarding & Daycare, Inc. involves physical activity and carries inherent risks, such as soreness, fatigue, or injury to myself, my family members, or my dog. I agree that Rae-Zor Grooming, Boarding & Daycare, Inc., along with its staff and affiliates, is not responsible or liable for any injury, illness, or property damage resulting from my participation in this program.

I understand that Megan Hall-Laughlin, CSCC, ABCDT, ABCSDT, provides strength and conditioning services that are meant to complement veterinary care, **not to replace it**. **She does not diagnose medical conditions, prescribe treatment, or provide veterinary rehabilitation or physical therapy.** Should I observe any signs of pain, lameness, weakness, neurological issues, illness, or any changes in my dog's comfort or performance, I will stop the exercise and seek veterinary evaluation before continuing.

I recognize that dogs may respond differently to exercise and equipment. Exercises must be performed with controlled movements, appropriate progression, correct posture and body position, and owner supervision. I agree to follow all instructions provided by the coach and to complete any recommended home exercises to support my dog's conditioning progress.

I understand that all dogs participating in the Canine Strength & Conditioning program at Rae-Zor Grooming, Boarding & Daycare, Inc. must be free of infectious diseases and current on all required vaccinations. This includes Distemper/Parvo, Bordetella (within the last six months), Canine Influenza, Rabies, a negative fecal exam, heartworm testing/prevention, and flea and tick prevention. Owners are responsible for providing a copy of their most recent vaccination records, as Rae-Zor Grooming, Boarding & Daycare, Inc. cannot obtain records directly from veterinary offices due to privacy regulations.

Package Timing: The package period begins on the date of the first scheduled follow-up session. Four-session packages must be used within 6 weeks; eight-session packages must be used within 12 weeks.

Eligibility: Packages apply to one dog only and are non-transferable. An initial assessment is required before follow-up coaching begins.

Health & Safety: Veterinary clearance may be required based on the dog's medical history. **CSC services do not replace veterinary care or canine rehabilitation and do not diagnose or treat injuries or illnesses.**

I understand that there are no refunds for tuition after the evaluation, and that make-up sessions are not regularly scheduled. Missed sessions may be rescheduled at the coach's discretion and by appointment only.
